

Statistical Computing in Action 2023

A Virtual Symposium by the ASA Section on Statistical Computing
Saturday, November 4, 2023
11:00 – 15:30 Central Time

Program

Keynote Speaker

Dr. Simon Urbanek

Title: R in Big Action: Handling large data sets and R as a service

Executive Editor of R Journal

Senior Lecturer of Data Science, University of Auckland

Data Jamboree

Dataset: A Subset of the NYC Open Data of 311 Service Requests

Contributed Speed Sessions

Abstract submission open until October 2

Panel Discussion

Open-source software, open data, and open computing

Panelists:

Tracy Teal, Open Source Program Director, Posit PBC

Carol Willing, Python and Jupyter Core Developer, VP of Engineering, Noteable

Achim Zeileis, Editor-in-Chief of Journal of Statistical Software, Professor, Universität Innsbruck

Register now!

FREE for student members of SSC
Reduced fee for other members of SSC
Low cost for everyone else

Learn More:

This event aims to:

- ❖ Showcase the power/beauty of statistical computing to students;
- ❖ Help practitioners sharpen their statistical computing skills; and
- ❖ Foster community across different computing communities.
